HOOFLAND'S GERMAN BITTERS,

AND

Hoofland's German Tonic.

THE GREAT REMEDIES

FOR ALL DISEASES OF

THE LIVER, STOMACH, OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medically termed, *Extracts*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixtures of any kind.*

HOOFLAND'S GERMAN TONIC

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medical virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

CONSTIPATION, FLATULENCE, INWARD PILES, FULLNESS OF BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEART-BURN, DISGUST FOR FOOD, FULLNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMNESS OF VISION, DOTS OR WEBS BEFORE THE SIGHT, DULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGININGS OF EVIL, AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

HOOFLAND'S GERMAN BITTERS

AND

HOOFLAND'S GERMAN TONIC.

PREPARED BY *DR. C. M. JACKSON,*
PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY,

Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, induced by Severe Labor, Hardships, Exposures, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will instil new life into the veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietors, but space will allow of the publication of but few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

Hon. Geo. W. Woodward,

Chief Justice of the Supreme Court of Pa., writes:

Philadelphia, March 16, 1867.

"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly, GEO. W. WOODWARD."

Hon. James Thompson,

"I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,

From Rev. Joseph H. Kennard, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates St.

From Rev. E. D. Fendall,

THE MILLER.

BY HERBERT C. DORR.

A Miller, all pale with the dust of years,
And whiter grown from the dust of his mill,
Stood toiling one day as the harvest came,
And great was he in both labor and skill.

And this was the song that the miller sang
As the wheels went round and his task not done;
"I toil through tides of the night and the day,
I'm toiling as long as the waters run.

"I grind the grain and winnow the chaff,
I save the wheat, but the husks are lost;
And the dust in my mill is the bread of life,
But the chaff is down in the waters tost.

"And men they may live, or men they may die,
And pass away like the foam of the sea;
But the grain they bring is all that I keep,
The wheat is for them and the toll is for me.

"Their grain is hid in its woody husk,
But the stones of my mill grind hard and true,
And the corn must yield and crumble to dust,
As I test its worth in its passing through.

"And the tolls I take in my hall I store,
For the Lord of the Manor hath need of rent,
And all that I have of mill, or of grain,
Is not mine own, but only is lent.

"And my wheat and chaff are the deeds of men,
That they bring to me in their toil and strife;
But the men pass away with the winds that blow,
For my name is Time, and the Mill is Life."

THE MONKEY AND THE CHILD.

In the year 1818 a vessel set sail from Jamaica for England, and among the passengers was a lady, the mother of an infant only a few weeks old. The voyage was very pleasant, the weather remarkably fine, and the passengers did their best to make the time pass agreeably. One beautiful afternoon the captain perceived a distant sail—a sight that is always welcome at sea. The discovery attracted the attention of all on board, and after the captain had gratified his own curiosity, he politely offered his telescope to the lady, that she might have a clearer view of the distant vessel. At that moment she had the baby in her arms; so wrapping a shawl about it she placed it on a sofa, on which she had been sitting. The captain assisted her to steady the glass; but scarcely had she applied her eye to it than the helmsman cried out, "See what that mischievous monkey has done!" The mother's feelings may be imagined, when, on instantly turning round, she saw that a large, strong, and active monkey, which was on board the vessel, had grasped the infant firmly with one arm, and with the other was nimbly climbing the shrouds, with the evident intention of reaching the very top of the mainmast. The mother, at the sight of her babe thus in a moment taken from her, fainted away. The captain was at his wits' end. He was afraid, if he sent the sailors after the monkey, that it would drop the child, and endeavor to escape, by leaping from one mast to another. In the meantime the infant was heard to cry, and it was thought that it was suffering from the grip of the monkey; but the animal was observed to imitate the motions of a nurse by dandling, soothing, and caressing the child, and even endeavoring to hush it to sleep. The lady had been conveyed from the deck to the cabin, and gradually restored to her senses; but her cries were most distressing and it was only by force that she could be prevented from going on deck and trying to climb the mast. Many a plan was tried to lure the monkey from his lofty eminence, but all in vain. At length, the captain ordered that every man should conceal himself below.—The order was promptly obeyed, and the captain took a seat where he could see without being seen. To his great relief, the monkey, on finding the coast clear, cautiously descended from the masthead, and replaced the infant on the sofa from which it had been taken, cold and fretful, and perhaps frightened, but in every other respect free from injury. The mother's feelings of joy and gratitude, when the child was once more placed in her arms, may be better imagined than described.

A CALIFORNIA paper records a singular fact connected with the cholera epidemic of 1850-51, which is of much interest to the science of medicine and electricity. A large shoe magnet of great power—such as is used in Sonora and California for cleaning gold dust—hung in the counting room of one of the largest merchants of Sonora. At the breaking out of the epidemic, the magnet lost its influence, and the usual steel bar fell to the floor; and during all the time of the cholera and fever the magnet's power was completely neutralized. But no sooner had the long looked for Gulf storm cleared the atmosphere, and the destroyer left, than the steel bar clung with its wonted tenacity to the magnet as before.

WHERE'S THAT MAN?—A few days ago the agent of an accidental insurance company entered a railroad car, and approaching an exceedingly gruff old man, asked him if he did not want to "take out a policy." He was told "to get out with his policy," and passed on. After riding about an hour, an accident occurred to the train, and the car run over the sleepers, causing much consternation among the passengers. The old man jumped up, and seizing a hook at the side of the car to steady himself, called out, "Where is that insurance man?" The question caused a roar of laughter among the passengers, who for the time forgot their danger.

HOW NATURAL!—A little boy was once in a complaining mood. His dinner did not suit him, so his father made that right; then his cup did not suit him, so one was brought that did; then his chair was not right, and his father took him in his lap, saying: "Are you all right now?" He looked around the room, and seeing the cat crossing the floor with tail erect, he said, in a vexed voice, "There! the old cat's tail sticks up!" and burst out crying. The old cat's tail was, in his case, the straw that broke the camel's back, but many of the complaints of older persons are just about as reasonable.

PRESERVING FRUIT BY COLD.

A fruit dealer in Philadelphia, named Hellings, who has a store along the wharf, is now building and fitting up a fruit preserving establishment on China wharf, in Bristol township. By the process used, fruit is preserved from decay, not by heat, but by cold. The building or apartment used is so constructed that a large quantity of ice is kept within, over which a current of air continually passes. The fruit is kept on shelves or drawers open to the cool air. The temperature is kept down to the uniform standard of about 34 degrees above zero—but two degrees above the freezing point. The result is that green fruit of all kinds may be kept for months without spoiling. Apples, pears, oranges, pine apples, &c., are kept in this manner until the arrival of a favorable time for putting them into market. The establishment of Mr. Hellings will be so located as to command easy transportation by railroad or canal to New York and Phildelphia.

It is said that Seckel pears, perfectly fresh, can be had in April by keeping them in a cold apartment such as this.—The advantages of such a contrivance to extensive dealers in fruit are very obvious. The knowledge that such a mode is already in use in some localities will be a new idea to some of our readers. Almost any one can try it on a small scale, provided the requisite amount of ice can be obtained. An experiment of this kind was tried some years since in Philadelphia by two Bucks county men. They succeded well in keeping the fruit, but the demand out of season was not so great as they expected, and the transaction was not very profitable. Now, however, the rich must be gratified at every cost; nothing is too luxurious or expensive to find a ready purchaser.

ALL the famous men of the nation attended Dickens's readings, among the number, Gen. Butler, who was present on Tuesday evening, when a coincidence occured that made Butler squirm. Dickens was reading that part of the description of Bob Sawyer's dinner party, from "Pickwick," that relates to the quarrel between Noddy and Grunter, and when the reader came to the extract: "Sir, I'm very much obliged to you for the caution, and I'll leave particular directions with the servant to *lock up the spoons,*" replied Mr. Grunter, a general titter ran around the Hall, and all eyes at once centered on the "hero of Big Bethel." It was capital, and the fun was hugely relished by all present. Butler's one eye blinked as the joke struck him, and for a moment he ducked as though a shell was passing over his head.

IN the House a vote was had the other day on the question of removing the National Capital from Washington to the Mississippi Valley. The vote stood 77 ayes to 97 nays. That is significant, and shows the growing power and aspiring disposition of the Great West. The little Yankee States of New England, which have been domineering so long by reason of their disproportionate influence in the Senate of the United States, would do well to take warning. It will not be long until they will be compelled to advocate most vigorously the ultra State Rights doctrine to preserve their States.

A CORRESPONDENT traveling in Utah says that the waters of Great Salt Lake rose last year three feet above their former level, and are still slowly but surely rising. The lake drains an immense district, and has no visible outlet. The writer's theory is that the subterranean drains are obstructed, and, as there are appearances that the level of the waters was once far above the present site of the city of the saints, he thinks there is danger that that delightful city may some day be again deluged.

PROF. AGASSIZ, in a lecture on "Nature against Grammar and the A B C," says that children should be taught to observe, compare and reason, and not simply required to commit to memory a certain number of words. His illustrations of this general principle were very interesting. TAXES! TAXES!! TAXES!!!

Startling Facts and Figures.

In a speech at Mansfield, Ohio, Hon. A. G. Thurman, United States Senator elect, stated some facts which are well calculated to impress the people of the North with the direct interest which they have in restoring the peace and prosperity of the South. Speaking of the taxes derived from the internal revenue alone, Mr. Thurman says that the amount paid by the whole ten of the Southern States for the last fiscal year was $19,693,749; in the same year Ohio paid $19,853,782; Pennsylvania paid $27,509,850. It would therefore appear, remarks the Reading *Gazette*, that the Southern States, which formerly paid their full share, if not more, of the taxation of the country, are now so impoverished that, in the last fiscal year, the single State of Ohio paid $160,033 more, and the State of Pennsylvania alone paid $7,816,101 more than all the Southern States put together. This is one of the practical results of Radical policy; and the people of the North may see, at a glance, the enormous price they are compelled to pay for the support of military despotism over the South.

Senator Thurman further demonstrates that the taxation of the people of this country is far greater than ever was imposed upon any people. In the last fiscal year, five hundred millions were collected in taxes by the general government alone. The taxes *collected* by the State amount to not quite two hundred millions more, making the entire taxation, in round numbers, seven hundred millions of dollars. The gross annual production of the industry of the United States, according to the census of 1860, was two thousand millions of dollars. Allowing for the diminished production of the South, and for increased prices, it is not supposed to be greater now. Thus more than one-third of the whole annual product of the industry of the country is absorbed by taxation. Mr. Thurman then proceeds to inquire what is the net profit of the production of this country, and taking as a standard the average rate at which money is loaned and borrowed, that being a rule laid down by every writer on political economy to obtain an approximate idea of the net profits of the production of a country, and assuming ten per cent. as the average rate of interest in the United States, as the productions of agriculture and manufactures of all kinds, would be two hundred millions of dollars. Thus taxation draws from the people five hundred millions a year more than the net profits of the producing industry of the United States—a greater portion of the taxation, however, being of course upon non-productive employments, those engaged in buying commodities and selling them again, who, though securing large individual gains, do not increase the wealth of the country a particle. Yet the startling fact remains that one-third of the gross annual product of the industry of the country is absorbed by taxation.—Such is the price which the people must continue to pay so long as a policy is pursued which renders necessary large military establishments and freedmen's bureaus, and which hands over one of the largest and formerly most productive sections of the country to the rule of its idle and degraded negro population—which is, of course, equivalent to its continued impoverishment and probable ultimate ruin, socially, politically and financially.

GRANT CLUBS.

Here is the way the Grant Club, at his home in Galena, was managed. It is not "such a very rouser" as it might be, as will be seen by the following extract from the *Democrat* published in that city:

> The Radicals have been very actively at work for several weeks, in this city, organizing a Grant club.
>
> It has been said that this movement was set on foot by Mr. Washburne, our representative in Congress, and that he instructed his followers here to use every effort to make "a big thing" of it; something that would show up the immense popularity of "the hero of Belmont and the Wilderness" at his own home in Galena. Well, the faithful have labored hard and zealously in the good work. Their master cannot complain that they have left anything undone which could have been undertaken to accomplish his object.
>
> Our readers will understand the *immensity of the success of the affair,* when we inform them that the towns of East and West Galena, (of which the city is composed,) number about 1,700 registered voters, and that the Grant club here has 150 members all told.
>
> Bully for the Dictator!

A LEAF FROM GRANT'S PRIVATE HISTORY.—The Galena *Democrat*, published at the home of the man who played the sneak in the Stanton affair, thus dishes up a page of private history, which is worth reading and remembering just at this time:

> "We have published extracts from leading journals, wherein the intemperate habits of General Grant are criticised pretty severely. We do this to show our people that others are at length finding out what everybody hereabouts, who knew anything about the General, have known all along, that he has for many years, except at brief intervals far between, been one of the most besotted drunkards.
>
> "We have refrained from speaking of this matter heretofore, and would not do so now if we thought it would injure his prospects as the Jacobin candidate, to have it generally known.
>
> "But we know the general acknowledgement of this fact will render him still more the idol of the party of moral ideas, and as he is of all others who have been spoken of as the probable nominee of the Radicals, the one we most desire to have them nominate, we willingly contribute our mite to help them in their choice."

THE BORDER RELIEF BILL.

AN ACT for the relief of the citizens of the counties of Adams, Franklin, Fulton, Bedford, York and Cumberland, whose property was destroyed, damaged or appropriated for the public service and in common defence, in the war to suppress the rebellion.

Whereas, During the late war to suppress the rebellion, several of the southern counties in this State were several times invaded by the rebels in great force, requiring the interposition of the armed forces of the United States and of the State to drive them from our borders:

And whereas, During these invasions and the movements of the armies engaged in repelling them, and especially in the three days of battle at Gettysburg, there was occasioned great destruction, devastation and loss of property of citizens of said counties:

And whereas, These losses were sustained in the common cause and for the public defence, and for the general welfare of the whole people of this Commonwealth, and it is reasonable and proper that citizens who have thus suffered should receive generous consideration and active relief from this great Commonwealth—Therefore:

Section 1. *Be it enacted,* That the sum of five hundred thousand dollars be and the same is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, to the relief of those citizens of the counties of Adams, Bedford, Franklin, Fulton, York and Cumberland, whose property was destroyed, damaged, appropriated or carried away, either by the armies at the battle of Gettysburg and in the movements and operations connected therewith, or in the invasions of the State by the rebels during the years from 1862 to 1864 inclusive, to be paid to such sufferers pro rata upon the valuation of their losses as hereinafter provided for. *Provided,* That the relief thereby granted shall embrace sufferers whose buildings, with contents, were burned by deserters from the armies or the draft. *And provided further,* That no relief shall be allowed as compensation for the use of lands for the encamping of troops.

Section 2. That the Governor of this Commonwealth shall, within sixty days after the passage of this act, appoint three disinterested commissioners, who shall not be residents of any of the counties named in this act, and who shall, within sixty days after their appointment, having been first duly sworn or affirmed to perform their duties with impartiality and fidelity, and having given ten days' previous notice, by publication in the newspapers of the several counties named in this act, proceed to said counties and make just and true appraisement of the losses sustained by the citizens thereof by reason of the destruction, devastation, appropriation or carrying away of their property, either by the armies at the battle of Gettysburg or in the operations and movements connected therewith, or in any of the rebel invasions of the State, and of any other sufferers named in this act in the years from 1862 to 1864, inclusive, and they shall continue to perform said duties until they shall have assessed the losses and damages aforesaid, of both real and personal estate; and upon each petitioner setting forth his, her or their losses actually sustained by the petitioners, if any. Each petition shall present a statement of losses sustained, under oath, and the commissioners shall require such additional proof in relation to the claims as they may deem necessary, by the examination of the claimant or any other witnesses who may be present or they may decide to call. *Provided,* That if any claim shall be presented for the benefit of an assignee, such assignee shall be required to prove to the satisfaction of the commissioners the actual cash value of the consideration paid to the assignor, and the amount so paid, if not in excess of the actual loss sustained, shall be the amount of the award; and each claimant shall be required to state on oath whether any assignment or transfer has been made of such claim or not. *And provided further* That if any person shall present a false statement in whole or in part, either for property not possessed or not damaged, destroyed or lost as aforesaid, or in excess of its just valuation, with intent to defraud, the petition of such claimant shall be dismissed without any allowance whatever. *And provided further,* That no claim shall be entertained or allowed in favor of any corporation or county, nor for any loss or property for which compensation has been received or is provided by any law of Congress, nor for any loss for which relief was provided by the act of 15th of February, 1866, entitled "An Act for the relief of certain citizens of Chambersburg and vicinity, whose property was destroyed by fire by the rebels on the 30th of July, 1864." *And provided further,* That each claim presented for adjudication shall be accompanied by an affidavit, made before some officer competent to administer oaths and affirmations, stating that the claimant has never, directly or indirectly, by word or act, given aid, comfort, countenance or encouragement to the rebels, whether in arms or otherwise; that he or she has never communicated, or attempted or taken means to communicate to them, or any of them, any information which could be of any advantage to them.

Section 3. That said commissioners shall, as soon as they have finished their duties, make full return to the Auditor General of all the petitions presented to them, with the awards thereon, and when such return has been filed, the said sum of five hundred thousand dollars shall be apportioned to said awards pro rata by the Auditor General, and his warrant shall be drawn upon the treasurer in favor of the persons to whom the awards and apportionment have been made; and the sums thus ascertained to be due shall be paid to the sufferers respectively, or to their heirs, executors, administrators, or assigns, upon their receipting for the same in full for such losses as against the Commonwealth, and which receipt shall also state the amounts paid, and authorize the State to receive from the General Government said sum of money which may hereafter be appropriated by Congress to compensate them for losses sustained by the war.

Section 4. The said appraisers shall be paid the sum of five dollars each per day when actually employed in the discharge of their duties; and they shall be allowed one clerk, who shall be paid the sum of three dollars per day, whose duty it shall be to keep a record of the testimony in each case, so that it may be transmitted to the Auditor General with the awards; and the salaries of said commissioners and clerk, together with necessary expenses for stationery, giving notice, et cetera, shall be paid out of the treasury out of any money not otherwise appropriated, after approval by the proper accounting officers of the State.

THE ARTICLES OF IMPEACHMENT.

On Saturday last, Mr. Boutwell, Chairman of the Select Committee, presented to the Senate the articles of impeachment, brought by the House against the President. They all refer to the Stanton affair, and might be embraced in two lines. But the impeachers know their case to be a weak one, and hence the effort to give it strength by a multiplicity of articles. The following is an abstract of these precious charges:

The first declares that Andrew Johnson, (President of the United States,) did, on the 21st day of February, unlawfully (!) issue an order removing Edwin M. Stanton, Secretary of War.

The second, that on the 21st day of February, Andrew Johnson issued an order appointing Gen. Lorenzo Thomas ad interim.

The third, that Andrew Johnson, on the 21st of February, committed a "high crime and misdemeanor" by appointing General Thomas Secretary of War ad interim.

The fourth, charges a conspiracy with Gen. Thomas to obtain possession of the War Department.

The fifth, that on the 21st day of February, and other days, President Johnson conspired with Gen. Thomas to prevent Edwin M. Stanton from holding said office.

The sixth, that on the 21st of February, President Johnson conspired with Gen. Thomas to take and seize the property of the War Department.

The seventh, that Andrew Johnson, on the 21st of February, and on other occasions, conspired with Gen. Thomas to prevent and hinder the execution of the *Tenure-of-Office* act, and to prevent Edwin M. Stanton from holding the office of Secretary of War.

The eighth, that on the 21st of February, Andrew Johnson conspired with Gen. Thomas to take and seize the property of the War Department.

The ninth, that Andrew Johnson, on the 21st of February, appointed General Thomas Secretary of War ad interim, and delivered a letter of authority in writing.

The tenth, that Andrew Johnson, as Commander-in-Chief of the Army of the United States, did, on the 22d day of February, bring before him General Emory, in command of the Department, and declared to him that he was not bound by the Constitution to obey the law providing that orders should be issued only through the General of the army.

This, every candid reader must admit, is the merest trumpery; but trash as it is, the "testimony" published gives it a still weaker aspect. If the subject were not so grave, men would look upon the performance as the broadest and baldest farce. Can it be that it will lead to the removal of the President of the United States! Law, justice, decency, cry out against it. Impeachment can only succeed upon the narrow ground of *party necessity*, the President being considered in the way of the negro-supremacy plans of the madmen who now lead the Radical organization. This single plank have they, and nothing more. To sink the President upon it, will be to send them and their followers down into deeper depths of infamy than any party ever before reached.

IMPEACHMENT IN THE SENATE.

There was a novel scene in Congress on Wednesday. At one o'clock the House resolved itself into committee of the whole, and preceded by Mr. Dawes as chairman, and by the managers, all the Republican members proceeded to the Senate to present the articles of impeachment against the President. None of the Democratic members accompanied them. On entering the Senate chamber the sergeant-at-arms announced the managers, and Mr. Bingham, on the part of the managers of the House, immediately read the articles of impeachment. The Senators remained seated during the reading, whilst the members of the House stood about the chamber in the rear of the seats. On the conclusion of the reading of the articles the President pro tempore announced that the Senate will take action on the subject of impeachment, and give due notice to the House.

The Senate subsequently adopted a resolution to proceed at one o'clock yesterday to the trial of the President, and appointed a committee to escort Chief Justice Chase to the chair.

Chief Justice Chase during the morning sent to the Senate a communication, giving his views on the proper mode to be observed in the trial of the President. He holds that the Senate must organize as a court before receiving the articles of impeachment from the House, and that the Senate must issue its summons to the President as a Court and not as a Senate.

A special Washington dispatch in yesterday's Baltimore Sun says the general impression is that the President will be required to appear about Thursday of next week, and that then a time, say twenty to thirty days, will be allowed him to prepare his defence, and at the expiration of that period the trial will commence and progress regularly, from day to day, to the end.

STATE CONVENTION.

The Democratic State Convention met at Harrisburg on Wednesday. Hon. Wm. M. Randall, of Schuylkill, president. Hon. Charles E. Boyle, of Fayette, was nominated for Auditor General, and Col. Wm. H. Ent, of Columbia, for Surveyor General. Hons. Isaac Hiester, Asa Packer, Geo. W. Woodward and Wm. Bigler were chosen Delegates at Large to the National Convention; Hons. Wm. V. McGrath and Geo. W. Cass Electors at Large; Hon. Geo. W. Brewer, of Franklin, and John B. Donehoo, Esq., of Fulton, were appointed Delegates to the National Convention from this Congressional district; Hon. Wm. P. Schell, of Bedford, Elector for the district. The Convention was full and harmonious. Resolutions, &c., next week.

IMPEACHMENT "MANAGERS."—The House on Monday elected its "managers" of the impeachment trial, viz: Thad. Stevens, Butler, Bingham, Boutwell, Wilson, Williams, and Logan. These are among the most malignant of the President's enemies, who will leave nothing undone to depose him. "Look in the Senate!"

TWO WONDERFUL EVENTS.—The Philadelphia Age remarks that the month of March, 1868, will exhibit two wonderful events—the trial of Jefferson Davis for insisting that the Southern States were out of the Union, and the trial of Andrew Johnson for insisting that they are in the Union.

GEN. THOMAS has brought suit against Stanton for false imprisonment, &c., laying his damages at $150,000.

THE HIGH CRIME—THE REAL CRIMINALS.

Were the President as guilty as he is guiltless, there are men at Washington guiltier than he, and a greater crime is *doing* than any he is accused of. Impeachment is but the blind of these greater criminals to hide this greater crime. It behooves the people of the United States to keep their attention fastened on this great crime—the crime of the Republican party and the Rump Congress—the crime of Disunion. Every other crime of theirs is less than this, or is adjuvant to this the greatest of their crimes. Their usurpation of the powers of the Executive; their usurpation of the powers of the Judiciary; their attempted occupancy of the Executive chair by the impeachment process; their squandering of the public treasure; their wholesale frauds upon the revenue; their continuance of the whiskey-tax at two dollars so as to get a few millions of money for carrying the November elections by suffering the whiskey-thieves and the bribed revenue-officers to plunder *the people of fifty millions*; their usurpation of the rights of States to control the suffrage and their prostitution of the power thus usurped to abridge white suffrage and confer the ballot by wholesale upon ignorant blacks; these indeed are crimes, but they are less than, or tributary to, their greater crime.

Four years of successful war they prostituted to party purposes. Three years of complete peace they have prostituted to party purposes. Disunion still exists, despite successful war, despite entire peace. Party ascendancy is still their sole purpose, and their plan is to maintain it by negro supremacy worked through a military despotism over ten States. Grant has consented to be their tool in working the military despotism, but he is only the General of the Armies of the United States. A successful despotism is not assured unless they can *control the Commander-in-Chief*. Hence they impeach the President who was the choice of the people, to replace him by another who has just been rejected by the people. Wade will be their pliant tool. Johnson will not.

Disunion prolonged to keep the Republican party in power; Negro supremacy worked by Military Despotism to keep the Republican party in power after Disunion becomes impossible;—these are the high crimes of the Republican party, these the misdemeanors of the Rump. These high crimes and misdemeanors of their own they now seek to abet, yet draw attention from, by their sensational impeachment of the President of the United States.

Their charges against President Johnson are trash. It is a scandalous effrontery to utter or to urge them. They deserve not the dignity of a flat denial. It is an insult to the understanding of any man to demand their disproof. The obstinate defender of the Constitution they impugn as its violator. Their charges are trash, as their schemes are glass.

Not he is the criminal. They are the traitors. The Rump Congress are usurpers and revolutionists. They band together and hoot their scandalous and impudent lie in the face of the nation, against the Chief Magistrate whose crime for them has been that he has upheld and obeyed the Supreme Law—that he has refused to conspire with them in disobedience and disunion, in usurpation and treason.

Let the people keep their eyes on the real traitors and the great crime. Let them watch the genuine criminals as they go through their solemn mockery of impeaching him who refused his consent to every step of their crime. Let them fasten their gaze on the usurpers, the traitors, the disunionists who make of this solemn procedure of an injured nation the instrument of their hate against the steadfast upholder of the nation's laws. Mark the revolutionists of the Rump as they insult the face of day with the pretence of a concern for the laws which in their hands have been nothing but the record of a party caucus and the register of party plans—for the Constitution which is everywhere rent with the trampling of their brutal heels.

Let the sensation-spectacle of a great impeachment go on. Let traitors be the ministers of Justice, let usurpers affect regard for the divisions of power in the structure they have undermined, let revolutionists uphold the Ark of the Covenant, let a faithful Chief-Magistrate stand in the dock and a Chief-Justice preside who is ambitious of his chair; let the amazing mockery go on, but refuse to be deceived by the disguises of their role, O fellow-Citizens! and forget not for a day the real criminals and their high crimes.—*N. Y. World.*

THE IMPEACHMENT ARTICLES.

The New York *Herald*, an independent journal, says of the articles of impeachment brought against President Johnson by the Radicals of the House:

The ten articles of impeachment make nothing so clear as that impeachment has not a sound foot to stand upon—that it is only the insane dream of men who, in indulging an intense party passion, have driven away from them the guides of reason and judgment, of men who having acquired the arrogant habit in Congress of forcing their will on a feeble majority, have forgotten that there is no previous question to cut off debate before the people, and who therefore are now in a fair way to find out that there is after all a difference between an extravagantly one-sided view of the law and the law itself. It matters not what happens in the Senate for the case is before the people, and they will judge it on the disproportion between the offenses charged and the remedy sought—on the utter want of wisdom, moderate counsel and patriotic purpose of the Republican party. If impeachment go through the Senate it will destroy the Republican party before the country; for the American people will not be dragged at the heels of an organization governed by the failing intellect and vindictive spirit of Old Thad Stevens. If impeachment fail in the Senate, it will only add to the decision of the people against the representatives the weight of the Senatorial judgment to the same effect.

As to the congressional charge of a conspiracy, based on the testimony of General Emory, it is impossible that any man, having read the testimony, can read the charge with a straight face. It gives a lively idea of the position of the committee, compelled to hash up some rigmarole to carry before the Senate, that it was reduced to the extremity of using such paltry material. Really this simple conversation between the President and a general, distorted into a conspiracy by heated imaginations, has not the dignity of the great conspiracy of Boum, Puck and Paul against the peace of poor Fritz; and it would be infinitely more laughable than that famous affair if one did not feel, that the fair fame of the country was in a degree involved.

NOT long ago Radical preachers and politicians insisted that Andrew Johnson "was made President by the hand of Divine Providence." Now because he will not bend to their infamous negro policy, he is denounced as coming from the devil. "The nigger" is what's the matter!

Thirty years hence the name of every one of the Ashley impeachers and negro-equality propagandists of the Rump will occupy a more notable position in American history than that of Benedict Arnold. They say they are making history, but it is such history as Judas Iscariot made.—*Patriot & Union.*

IMMENSE CONSERVATIVE MEETING IN PHILADELPHIA.

Horticultural Hall, the spacious building on Broad street, Philadelphia, was filled to overflowing on Saturday night, with an intelligent audience, assembled to give expression to their disapprobation of the arbitrary and unconstitutional course of a Radical Congress in impeaching a patriotic Chief Magistrate. The hall was decorated with flags and mottoes, prominent among which was the following over the speakers' stand: "The Union and the Constitution!" Gen. Isaac J. Wistar presided, assisted by a large number of Vice Presidents and Secretaries. Gen. W., on taking the chair, thanked the vast assemblage for the honor conferred; declared that the meeting was not for the purpose of expressing sympathy for Andrew Johnson, or any other individual, but to sustain *the President of the United States*; and concluded by saying:

It is a sacred, and a solemn duty that we have to perform—not simply to ourselves as citizens, but more than this—we have a duty to perform towards the families of the dead of three hundred thousand soldiers who sleep between the Susquehanna and the Rio Grande. If the dead could break the silence of the grave, and raise their voices here, they would be found in sympathy with those who are now battling for the Union. They would say, "We fought for that Union—we passed away in its defense, and not for keeping the States dissevered." These are the kind of sentiments that should find a hearty response in the bosom of every soldier. Such sentiments as these should animate the breast of every one in the country; therefore, let us think of them whenever we find the foundations of our Republic assailed by reckless partisans. The very government is now assailed by them—by men who, instead of seeking to preserve the United States, seem determined upon their destruction. [Applause.]

Ex-Governor Bigler, Hon. Richard Vaux, Col. McDowell, Col. Lechler and Col. Ziegler addressed the meeting successively, and were applauded throughout. The following resolutions were then proposed and adopted with great enthusiasm:

The Democratic and Conservative citizens of Philadelphia who regard the government of the United States as a constitutional system, founded by the patriot fathers and sages and statesmen, and who are determined, God helping them, to maintain the Union and the Constitution against all enemies:

Do Resolve, That representing the majority of the people of Philadelphia and Pennsylvania, that the usurpation and revolutionary action of the representatives of a portion of the States of the Union, in a so-called Congress now assembled, is a REBELLION AGAINST GOVERNMENT.

Resolved, That Congress is a Constitutional Department of the Government, and all its powers are granted by the Constitution, and without this authority, all its acts "*outside* of the Constitution" are REBELLIOUS EFFORTS TO SUBVERT THE GOVERNMENT.

Resolved, That we protest against the usurpations of Congress in attempting to destroy the constitutional powers of the Executive Department and the Judicial Department of the Federal government, they being co-ordinate and coequal with the Legislative and alike beyond its control.

Resolved, That the people have subdued one rebellion against the Union and the Constitution, waged by war, thus declaring by the decision of arms that the Union is, and the Constitution shall be paramount and beyond all efforts to destroy them, and that the action of the so-called Congress is a peaceful rebellion to prevent the union of the States and destroy the supremacy of the Constitution.

Resolved, That we will sustain and support the Executive and Judicial departments against the usurpations of Congress, and give all our "aid and comfort" to the President of the United States in his acts which are for the defense of the Union and the Constitution against legislative treason.

Resolved, That all persons who seek to prevent this may be justly regarded as enemies to the peace and welfare of the community, and all who stimulate to violence, whether they be Governors of States or members of Legislatures, should be denounced as traitors to the Constitution and laws they have been sworn to support.

Resolved, That the white race is the governing, the source of all political power under the *Constitution*, as "the people" of the United States, and we will never submit, never, to any "policy" of Congress which proposes to give the negro race either political power or social equality.

Resolved, That copies of this preamble and resolutions be signed by the officers of this meeting, and sent to the presiding officer of the Senate, and the presiding officer of the members called the House of Representative, now assembled in Washington, District of Columbia, and to the President of the United States.

MASS MEETING IN NEW YORK.

A great mass meeting was held in New York city, on Friday evening, in opposition to the proposed impeachment of President Johnson. All the papers of that city concur in stating that it was attended by a large number of the leading merchants, bankers, manufacturers, workingmen and other prominent business men. Among the speakers was Mayor Hoffman, of whose speech the Express gives the following sketch. Mr. Hoffman said:

The meeting had been called by the merchants, bankers and professional men of this city, who represent its capital by millions of dollars. It was well it had been done. It would be a shame to the American nation if no voice went forth from it in regard to the recent measures of Congress, who were attempting to remove the President of the United States by mere form of law. It was well it was so, for it would be a burning disgrace to the age if the men of the city of New York, interested as they are in the prosperity of the whole country, uttered no word against the partisan majority in the two houses of Congress. What was the trouble? It was a very simple story, and one which every man should read and understand. The speaker then detailed the circumstances attending the removal of Mr. Stanton.

The President in the hour of trial has at all times been sustained by the people. The executive, legislative and judicial departments were distinct and separate, and the whole salvation of the country rested upon their being continued so; and if the business men of New York and America did not arise at an attempt of Congress to seize the executive branch, then farewell to the constitution and to the country. The removal of Mr. Johnson *per se* might not affect the commerce, credit or peace of the country, and he hoped it would not. The removal of Mr. Lincoln by an assassin did not affect the commerce, credit or peace of the country; but that was no reason for the assassination. And although the removal of Mr. Johnson *per se*, as Andrew Johnson, may not strike upon the public mind with force and terror, nevertheless the fact that a party in Washington attempt the removal of the President of the United States ought to strike the public mind with force and terror.

Men, all through this country, rich and poor, were to-day discussing the question of how the national debt is to be paid, whether in gold or currency. He would tell them that unless they put down this first attempt of Congress to reject the President without cause, they had better ask the question if it would be paid at all. Once let it be understood that one branch of the government can be overturned and overpowered by another, then he would ask what security we had for debt or personal property? He protested, therefore, against the Impeachment act of Congress, and urged the country to stand by President Johnson in the defense of the powers and prerogatives of his office. [Prolonged applause.]

THE *Hagerstown Mail* comes to us enlarged and improved. The *Mail* is an able and well conducted paper, and it gives us pleasure to chronicle this additional evidence of its prosperity.

GRANT IN FAVOR OF NEGRO-SUPREMACY.

General Grant has at length sold himself, body and soul, to the Radicals. He comes out now, *not only in favor of negro-suffrage, but also in favor of negro supremacy.* Not long ago, General Hancock removed nine of the members of the City Council of New Orleans for disobedience of orders. Two of this number were white men *and seven were negroes.* General Grant has recently revoked this order, and thereby re-instated these refractory colored gentlemen in their positions as City Fathers. To what depths will a man sink himself now-a-days, in order to gain popularity with the party whose nomination he is courting. Citizens of Franklin county, you who desire white men to rule America, will you support a man for President who thus places negroes in the high positions of the land to the exclusion of white men, even when doing so, it becomes necessary to humiliate a gallant officer like General Hancock?—*Valley Spirit.*

STANTON'S unauthorized re-establishment of the negro Bureau in Kentucky after its discontinuance by orders from the President, is severely denounced by the people generally in Pennsylvania. Whilst the Northern States are overrun with honest and industrious white mechanics and laborers in search of employment, (many of whom are suffering for want of bread,) it is justly looked upon as an outrage and a crime to continue to feed and clothe, at the public expense, thousands of able-bodied negroes who can get work but who will not labor because they expect to be made landholders and office holders under the Africanized Southern State governments. Besides this the laboring classes in the Northern States, who are employed, are daily paying heavy taxes upon all they eat, use and wear for the support of the *negroes* who are refusing to make contracts with farmers for the year in the expectation of being made landowners by the mongrel conventions. Stanton's unlawful act, in favor of lazy Southern blacks and against the industrious and suffering workpeople of the North, is justly looked upon, therefore, as equal in infamy to his refusal to exchange "sound men for skeletons," during the war, because the "rebels" would not consent to rate the nigger as the equal of the white man.—*Patriot & Union.*

THE New York *Evening Post* hits its Radical brethren in Congress some hard blows, in relation to the impeachment question. It says, "do the Republicans in Congress believe that the country will see with patience the most necessary legislation on the currency and the taxes put off, in order that they may prosecute their quarrel with the President? Let them not so deceive themselves. The use of a politician, in a free country, is to serve the people, and advance measures which shall make them more comfortable and happy. There are men now in Congress who desire an honorable future; would they not do well to see in what way they can do something for the people?"

THE New York *World* gives election returns from fifty-two towns in that State which, in 1866, gave a Radical majority of 3,044; in 1867, they returned a Democratic majority of 77, which at the late town elections was increased to 691.—Similar gains throughout the State would add 20,000 to the Democratic majority of last fall. A continuation of such acts as the impeachment of the President by the "Rump" and the prostitution of the judiciary by Judge Carter, will swell the Democratic majority to an overwhelming figure, not only in New York, but in all the States of the Union. Victory is coming to the Democracy; let them be prepared to receive it.

THE Radical leaders, through Judge Carter's discharge of General Thomas, prevented the President from procuring an immediate legal decision upon the tenure of office bill. It is said that they contemplate withdrawing their case against McArdle, now in the Supreme Court, in order to prevent a decision upon the "destruction" acts. It is farther stated that, should the President succeed in getting the Stanton case into the court before they can get him deposed, rather than risk the action of the Court, it has been determined that Stanton shall resign. These are some of the tricks of the Radical usurpers, whereby they hope to retain unlawful power, or, at least, to conceal from the people the false constitutional basis upon which they stand. How can any decent, law-abiding man tolerate much less respect such infamous creatures?—*Patriot & Union.*

ANOTHER DEMOCRATIC VICTORY!—Lock Haven, Pa., February 29.—The municipal election held here yesterday resulted in a grand triumph, every ward going Democratic. The majority for R. R. Bridgens, Mayor, is 193 against 80 last fall. No recruits here for Geary.

NEW YORK CHARTER ELECTIONS.—New York, March 3.—Charter elections took place in various parts of the State to-day. In most of the towns heard from the returns show Democratic gains.

PORTLAND, Me., March 2.—The charter election to-day resulted in no choice, although the vote was the heaviest cast since 1860. McClellan, Republican, has 2,404; Peter Putnam, Democrat, 2,242; Deering, independent Republican, 179. The Democrats have gained 386 over the fall election, and 810 over the spring election.

FROM Washington to Lincoln, all the Presidents exercised the right to remove members of their Cabinets, whenever they thought such a course right and proper. No one ever doubted or denied their authority to do so under the *Constitution*, or talked of impeaching them for preferring one man to another for Secretary of War or Postmaster-General.—Yet now, Andrew Johnson is to be impeached for doing this very act.

THE UNITED STATES SENATE AND IMPEACHMENT.—The Senate consists of forty-three Radicals and ten Democratic conservatives. By a provision of the constitution "no person shall be convicted without the concurrence of two-thirds of the members present," which, in the present case, would be thirty-six, so that the Radicals have enough votes to insure the conviction of the President and seven votes to spare, if every Senator who was elected as a Radical shall allow his political hostility to President Johnson to overcome his sense of duty.

THE Constitution provides that upon "impeachment and conviction of high crimes and misdemeanors," the President may be removed from office. Hence the Senate will yet have to convict Mr. Johnson, before he can be removed from office.

[illegible]

THE CONTESTED ELECTION CASE.

The State Senate contested election case of Robinson vs. Shugert drags its slow length along. A few weeks since the Radical newspapers, with great noise of trumpets, paraded the testimony of one O'Meara, as to alleged frauds in Centre county, and his statements, that fraudulent naturalization papers were used and that a number of men under his employ voted upon them for Mr. Shugert, were accepted by the Radicals as truth. Whilst the character of this witness continued unimpeached of course his testimony would have weight, hence, knowing that before the end of the contest his character would be torn to shreds and shown to be valueless, the Radical managers and organs made haste to secure advance capital out of testimony which they will not dare to refer to hereafter as worthy of a moment's consideration.

The testimony given this week, on the part of Mr. Shugert, shows up this man O'Meara in his true character. One of the men whom he swore voted in Philipsburg (James M'Donald) was called to the stand and testified that he did not vote there, but voted in Clearfield county, where he cast a Republican ticket. He produced his certificate of naturalization and his honorable discharge as a soldier. He testified, also, that five others of the men named by O'Meara as having voted at Philipsburg on fraudulent papers were not there on election day, but had left the work. He swore, further, that O'Meara's character for truth was bad, and that he would not believe him on oath.

Besides this conclusive testimony against the main witness relied upon by Robinson, eleven citizens of good character, from Elk, Clearfield and Centre counties, have sworn that O'Meara's character for truth is bad, and that they would not believe him on oath. Among these witnesses is an ex-member of the Legislature and an acting justice of the peace. Added to this, full proof has been furnished of the circumstances under which the men upon the railroad were removed from one part of the line to the other, and, so far from it being for fraudulent purposes, it is shown to have been for the purpose of prosecuting the work at the only time when it could be done. It is also in proof that before the election O'Meara was in consultation with Republican leaders to sell them the Irish vote under his control.

These are a few of the leading facts shown on the part of the sitting member, and we venture the assertion that the character of the case made by the contestant will be so effectually blackened by this and other testimony that he will be heartily ashamed of his connection with this vile attempt to deprive Mr. Shugert of an office to which he was fairly and honestly elected.—*Harrisburg Patriot & Union.*

For the Gettysburg Compiler.

"THE REGULATOR."

Some fifteen or eighteen years ago, there was a dirty little "locofoco" sheet, filled with bad grammar and vulgar wood cuts, published in Hanover, York county, Pa., by Joseph S. Gitt, editor and proprietor, called the "Regulator."

This Joseph S. Gitt made himself so obnoxious to the proprietor of the Whig organ of the town by his scurrilous articles, that the said Mr. Gitt got pretty badly scared if not hurt, one evening, in a hardware store, in which he happened to meet said editor of the "Spectator."

Democrats blushed to read his paper and heartily hoped that it would cease its publications or its vulgarisms. But it lived for a time, without any subscribers, and finally died, either from want of breath or bread, I don't know exactly which.

It then rose again, like Phœnix from its ashes, for awhile, but not having sprung from the brain of immortal Jove, "The Scarificator," "Prevaricator," or whatever it was called, soon followed the "Regulator" to its grave, but this time beyond a doubt for the want of bread.

Mr. Gitt then, from absolute necessity, or better sense, quit journalism, a field in which he was never destined to flourish with any credit to himself or benefit to the party he claimed to belong to, and commenced Engineering, at which he made a comfortable support for his family and acquired some credit to himself; but in an evil hour, Mr. Gitt commenced writing a series of letters over the signature of J. S. G. of a political character for the "Star & Sentinel," forgetting his conversion to religion and his past hatred of the Abolition party, that for low, dirty, vulgar, blackguardism were fit emanations from the Editor of the "Regulator." Any person reading the one over his own signature in the "Sentinel" of February 19th will be forcibly struck with the *animus furandi* which pervaded every column of the "Regulator."

But why is this? Mr. Gitt has never received anything but kindness from the people of all parties since he commenced Engineering, and if the "Regulator" was *not supported* it was Mr. Gitt's own fault.

What has Mr. Johnson done to Mr. Gitt that he clamors so loudly for his impeachment, and induces him to utter the wilful lie that the people want it. This is not becoming in anybody, and much less in a man who professes to have received experimental religion and lives in fear of a just God.

If Mr. Joseph S. Gitt wants war, he is likely to be accommodated, to judge from the signs of the times, and I hope he will not do as he did in the last war, but buckle on his armor and repair to where the battle is the hottest, and expend his coloric to more purpose than abusing his betters in scurrilous contributions to newspapers. OLD TIMES.

AN organization is in progress in St. Louis, composed of Democratic ex-officers and soldiers of the Union army. It is designed to counteract the influence of the Grand Army of the Republic. P. M. Fullerton is or will be President, and other prominent Conservatives will be among its officers.

THE REPUDIATOR.—A new paper has been started in St. Louis called the *Repudiator*, which will advocate, it says, "the repudiation of the so-called national debt, except that portion of it represented by legal-tender notes." Judging from the State platforms recently set up in the West, it will find a large number of adherents in both parties in that section.—*Sun.*

THE Pittsburg *Chronicle*, Independent Radical, declares that the attempt of Geary, Quilsby, and other irresponsible parties, to stir up popular fury and plunge the country into a bloody war on account of the mere removal of a subordinate official, is a crime against the country. This it is, and a most infamous one.

AN Alabama negro who was opposed to the Radical league and who used his influence to keep negroes from going to the polls to vote at the late election, was killed last Monday night, about seventy miles from Montgomery, by a violent Radical.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

Damage Bill.—The Border Damage bill, now before the Legislature, is printed on our first page, for the information of all having any interest in it.

Courts.—The bill changing the time of holding Courts in Adams county has become a law. The change will allow two weeks for the November and January Courts each.

Township Meeting.—The Democrats of Huntington township are requested to meet at the public house of Mrs. Reed, in Petersburg, on Saturday, March 14th, to settle a ticket to be supported at the Spring Election.

Fur Cape Lost.—A Siberian Squirrel Fur Cape was lost, on Tuesday last, between the Keystone House, in this place, and Bream's, on Marsh creek. A suitable reward will be paid for the return of the cape to Capt. R. McCurdy's, on Chambersburg street.

Stolen.—The Hanover *Citizen* says that on the 20th ult. nine bushels of wheat were stolen from the barn of Mr. S. Schwartz, in Conowago township, this county.

Borough Election.—The election for a Burgess, two members of Town Council, three School Directors, (one for two years,) one Election Judge, two Inspectors, one Assessor and two Constables, will be held in this borough, on Friday, the 20th inst.

Cold.—The mercury went down to zero on Tuesday morning, and intense cold prevailed all day. It was throughout as cold as any day of the winter—some think the coldest. As we write, Thursday, the weather is more moderate, and threatens to spoil the fine sleighing so long had.

Shooting Match.—A shooting match is advertised by F. A. Gintling, to come off in this place, on Wednesday and Thursday, the 18th and 19th instant, for a large steer and two fine hogs. The arrangements for the match will be made at the Globe Inn.

Sales.—The spring sales are in full tide, several occurring every day in different parts of the county. We learn that the attendance is generally large, and the prices good—in many cases high beyond expectation. The latter is especially noticeable with sales well advertised.

Property Sales.—John Miller has disposed of "Liberty Mills," (formerly Nunemaker's,) in Liberty township, to John H. Sherman, of Huntington county, at $10,000—taking real estate in Huntington county in payment.

Dr. E. Melhorn has purchased Sheely's Warehouse, in New Oxford, at $3,700 cash.

Building Association Items.—The money of the Gettysburg Building Association sold at 40½ per cent. premium on Saturday evening last. The money of the York Springs Association, which is now also in full blast, (stock all taken and more wanted,) sold at 83½ per cent. the same evening. The Littlestown Association will be chartered at the April Court, and at once go into operation.

Lectures.—Dr. McCron's lecture in Agricultural Hall, on the Trials and Triumphs of Industry, on Friday evening, was well written and well delivered, and was complimented with a good house and frequent applause.

Hon. A. K. McClure, of Chambersburg, will lecture on Monday evening, March 23, with "Mormonism" for his subject. The Col. having "been there to see," a very interesting lecture may be expected.

Death of a Good Citizen.—Henry Myers, Esq., of New Chester, died on Saturday morning last, after a very brief illness. In the early part of the previous evening he was in his usual health. At about 8 o'clock he was stricken with apoplexy, and at 2 next morning was no more. His neighbor and friend, Dr. Melhorn, gave the sufferer the most prompt and devoted attention, but all of no avail.

Thus has passed away one of the oldest and most esteemed citizens of our county—widely known, and known only to be respected. Strictly honest, with sound judgment and great kindness of heart—decision of character, coupled with a high degree of native courtesy—Henry Myers possessed qualities which admirably fitted him for the sphere of usefulness he so long occupied in that community. His death is therefore more than ordinarily lamented. His family lose not only a kind and affectionate husband and father, but the neighborhood a safe and reliable adviser in all individual and public matters.

The funeral took place on Monday, at 2 P. M., and was largely attended. The remains were taken into the church at New Chester, (with the erection of which his liberality had much to do,) where feeling and appropriate exercises were had, Rev. Mr. Davis, of New Oxford, and Rev. Mr. Deatrich, of this place, officiating. At the conclusion, the body was solemnly committed to the grave.

The age of Mr. Myers was 76 years and 11 months. He some years ago represented this county in the State Legislature, and since held many positions of trust and confidence, in each of which he distinguished himself for efficiency, correctness and honesty. All in all, he was the highest type of a good citizen, and as such his death may well be generally deplored. May he rest in peace!

Gas Company Election.—The annual election for officers of the Gettysburg Gas Company took place on Monday evening last, and the following persons were unanimously chosen:

President, E. G. Fahnestock.

Managers, A. D. Buehler, H. D. Wattles, J. B. Danner, W. A. Duncan, S. R. Russell, M. Eichelberger.

Rev. Dr. Jacobs, under whose supervision the Gas Works were erected, and who occupied the position of President ever since the organization of the Company, was compelled to decline a re-election on account of failing health. The Company is in a sound condition.—The consumption of gas during the past year realized $4,426 15, being in excess of any previous year. The statement shows a cash balance in hands of Treasurer of $1,486 46, after payment of dividends and working expenses. It is intended to put up another bench of retorts, the expenses of which, with other contemplated improvements, will be about $700.

Special Attention of Ladies is invited to Wm. T. Hopkins' three grades of Hoop Skirts—the "*Keystone Skirt,*" "*Union Skirt*" and "*Champion Skirt.*"—Read advertisement in this issue.

Caution!—In our changeable climate, coughs, colds, and diseases of the throat, lungs and chest will always prevail. Cruel consumption will claim its victims. These diseases, if attended to in time, can be arrested and cured. The remedy is Dr. Wistar's Balsam of Wild Cherry.

THE SPRING ELECTIONS.—At the township elections in Warren county the Democracy have made large gains, and in Northumberland they have done the same thing, carrying nearly every election district in the county.—That is the proper way to begin the Presidential campaign. Let it be followed up everywhere, and the result will be seen at the polls next fall.

BARNUM'S MUSEUM BURNED.—Barnum's Museum, on Broadway, New York, was destroyed by fire on Tuesday morning last, with nearly all of the thousands of curiosities it contained, including a portion of Van Amburg & Co's. menagerie. The "baby" elephant, two camels, the giraffe, the kangaroo and a Japanese hog were saved, with much difficulty. The origin of the fire is a mystery. Barnum's loss is estimated at $250,000. He will no doubt rebuild immediately. His old Museum was destroyed in July, 1865, with a loss of $500,000.

THE New York board of Aldermen have before them a resolution urging the Legislature to impeach Governor Fenton for "high crimes and misdemeanors," for not enforcing a law passed by the Legislature of that State.

A CORRESPONDENT of the Baltimore *Gazette* says that "Gen. Emory astonished the Radicals to-day (27th) by testifying that the only fears he had heard expressed among officers was that a *treasonable organization known as the Grand Army of the Republic* had been forming."

WHEN one individual prosecutes another he always tries to bring in as much testimony against his enemy as possible. The Radical usurpers, however, in their prosecution against the President, find it absolutely necessary to bring in as little as possible, because the more they bring the worse their case will appear.

Blanks.—Common, Executors' and Administrators' Deeds, Mortgages, Common and Judgment Bonds, Amicable Actions, Promissory, Judgment and Waiver Notes, Summonses, Subpœnas, School Orders and Statements, and all other BLANKS—printed on the best of paper, and with clear type—can always be had at the COMPILER office.

Coe's Dyspepsia Cure will immediately relieve and permanently cure the most aggravated case of Dyspepsia, Flatulency, Sour Stomach, Constipation, and all diseases of the Stomach and Bowels. Physicians, clergymen and all who use it, join in unbounded praise of its great virtues. Sold by Druggists everywhere. Price $1.00.

A recent writer said that no nation bestows less attention on the human hair than the Americans. If this be said in regard to the oils and greases that are used, then never was greater mistake made. We are to know a Remedial Medicinal preparation is now offered in the market. It is not one of those clear colored liquids, whose only merit consists in their beauty, but of intrinsic worth, which cures all diseases of the scalp, restores the hair to its natural color, when gray, and causes new hair to grow where it has fallen out; this is Hall's Vegetable Sicilian Hair Renewer. We speak of its virtues from actual use.—*Northern Gazette.*

Of the almost innumerable number of preparations in the market for restoring gray hair to its original color, we know none of which gives so universal satisfaction as Ring's Vegetable Ambrosia. We have tried it and found it to restore the color in a truly wonderful manner—as well as to remove dandruff and all itching caused by humors of the scalp. Try it and be satisfied.

Song of Iron.

I am mighty in the saber,
Fiercely wielded by the brave,
Glorious in the stalwart steamer,
Laughing at the storm and wave.
Beauteous in the palace pillars,
Swaying in the pointed rail,
As it brings the deadly lightning
Quelled and harmless to the soil.
But there is a glorious essence,
Where I take my grandest power,
Giving to the RACE my sinews,
Steadfast aid, in danger's hour.
See! before me fly disease!
See the darkest hydras bow!
See the rose of health and beauty
Take the palest cheek and brow.
Fly, dyspepsia! fly consumption!
Yes, all ills are crushed at length!
For I give what human nature
Only ever needed—STRENGTH!
Shall I tell in what great essence
I can thus your spirits cheer up?
Pallid, trembling, dying sufferer,
'Tis the famed "PERUVIAN SYRUP."

The PERUVIAN SYRUP is a protected solution of the Protoxide of Iron, a new discovery in medicine that strikes at the root of disease by supplying the blood with its vital principle or life element—Iron. HOW TO MAKE MILKERS.

No matter what breed you have, whether Aryshire, Jersey, Short Horn, or grades, something is necessary to be done to reach the highest success in raising milkers.

It is a great thing to have good blood, but apart from this advantage, the course of raising a milker is somewhat different from that of raising an animal for beef or for labor.

The calf should be well fed and petted while young.

Fondling helps to create a quiet disposition, so important in a dairy cow, and this education must begin when young.

For a milker we would have the heifer come in at two years old, and if she has been well kept, so as to have attained a good size, she is then old enough to become a cow. She will give more milk for coming in early. It forms the habit of giving milk, and the habit, you know, is a sort of second nature. We use too many young bulls. An older bull is better. A three year old bull is far better as a stock getter than a yearling, and many prefer a five or six years old to any other. After the heifer has come in let her be fed regularly. A little oatmeal induces a large flow. Indian meal is rather fattening. In bad weather, give her a clean, airy stall.

A cow newly come in should not drink cold water in cold weather, but moderately warm slop. Calves intended for raising should be taken from the cow within a few days after birth. Feed them first with new milk for a time, then skimmed milk, then sour milk, taking care that all the changes are gradual, by adding only a portion, and gradually a little meal.

Calves well fed and taken care of, with a quart or two of meal daily in winter, will be double the size at two years old they would have attained by common treatment.

Heifers thus treated may come in at two years old, and will be better than neglected animals at three, and one year of feed saved.

Heifers dried up too early after calving, will always run dry earlier in after years; therefore be careful to milk closely the first year, until about six weeks before calving.

Hearty eaters are desirable for cows, and they may usually be selected while calves. A dainty calf will be a dainty cow.

Heifers should become accustomed to be freely handled before calving, and drawing the teats.

They will then not be difficult to milk. Begin gradually and never startle them.

Persons who milk should keep the nails short; animals are sometimes hurt with sharp nails, and are unjustly charged with restlessness.

To determine which cows are best for keeping, try their milk separately, and weigh their butter—for sometimes a cow may give much milk and little butter, and vice versa.—*Colman's Rural World.*

MILKING BEFORE CALVING.—A dairyman writes the Practical Farmer that the best cows he ever raised had to be milked several weeks before the period of calving. This practice was a preventive of garget, and tended to the general health of the animals. It sometimes happens that the udders of cows become greatly and painfully extended weeks before calving, and but few persons resort to the sensible practice of relieving them by milking. If this were practised more there probably would be less compliant of garget than there now is.

GREASING WAGONS.

But few people are aware that they do wagons and carriages more injury by greasing too plentifully than in any other way. A well-made wheel will endure common wear from ten to twenty-five years, if care is taken to use the right kind and proper amount of grease; but if this matter is not attended to, they will be used up in five or six years. Lard should never be used on a wagon, for it will penetrate the hub and work its way out around the tenons of the spokes, and spoil the wheel. Tallow is the best lubricator for wood axletrees, and castor oil for iron.

Just enough grease should be applied to the spindle of a wagon to give it a light coating; this is better than more, for the surplus put on will work out at the ends, and be forced by the shoulder bands and nut-washers into the hub around the outside of the boxes.

To oil an axletree, first wipe the spindle clean with a cloth wet with spirits of turpentine, and then apply a few drops of castor oil near the shoulder and end. One teaspoonful is sufficient for the whole.—*Ohio Farmer.*

CALEDONIAN CREAM.—Two ounces of raspberry jam or jelly, two ounces of red currant jelly, two ounces of sifted loaf sugar, the whites of two eggs, put into a bowl, and beat with a spoon for three quarters of an hour. This makes a very pretty cream and is good and economical.

BOILED SHAD.—Clean your shad, wash and wipe it, flour it well, wrap it in a cloth and put it into a large vessel of boiling water with a great deal of salt. It will require about twenty minutes to cook it. Serve it with egg sauce or rich drawn butter.

A MONGREL organ says it is "satisfied with Grant's moral character." Of course it is. A person who can be satisfied with the whiskey-guzzling of Sprague, Yates and Chandler; with the blasphemy of old Ben Wade; with the soulless, heartless, acrimonious Thad Stevens; with the blackguardism of John A. Logan; with the bloodthirsty McClurg, Shenck and Boutwell; with the contemptible thing, Ashley; with the corrupt Cameron; with the leech Forney; and with the rest of that band of Rump usurpers and robbers who are destroying the Government and plunging the people into financial ruin, is amply prepared to be satisfied with any person or thing that promises them power and plunder.—*Exchange.*

QUEER KIND OF RETRENCHMENT.—The Harrisburg *Patriot & Union* says, Radical reform is beginning to develop itself at the State Capitol. We see that the Committee of Ways and Means, of which the economical fanatic from Potter is chairman, have reported additional appropriations for the extension of the Governor's mansion. When the children of the State are crying for bread, and poverty and want visit the hearth-stones of many of our people, we are of the opinion that Geary "extension" should cease.

"OPPRESSION!" is the public cry.—"Relief!" the popular demand. We attack internal taxes, and stamp on all stamps.

[illegible], of Easton, is said to own a cow that averages thirty-two quarts of milk a day.

AGENTS AND DEALERS IN

PIANOS & CABINET ORGANS, MELODEONS,

MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Reikes & Schmidt,
Chickering & Son, Bradbury,
Knabe & Son. Gale & Son,

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money,* and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

LYON'S PERIODICAL DROPS!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES!

I have tested these Drops in my own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of the first instance of failure. I could give you testimonials of their efficacy from all over the northern and western States, were they not in their nature private. Over 100,000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that where one bottle is thus used, ten may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by enclosing the price to C. G. CLARK & CO., New Haven, Conn., General Agents for the United States and Canada.
